

Interlube Lube-in-a-Box Automated Lubrication Kit

SIMPLE. EASY. EFFECTIVE.

Interlube has been helping businesses increase equipment uptime and performance since 1922. We expertly engineer lubrication systems to help increase efficiency, extend component life, and boost profits.

READY TO INSTALL. Lube-in-a-Box is a complete lubrication system in a single kit.

PRODUCTIVE. Continuous and complete lubrication helps increase uptime.

EFFECTIVE. Designed to accurately distribute lubricant while machine is in use.

EFFICIENT. Controlled application reduces wasted lubricant.

SAFE. Technicians avoid the potential dangers of manual lubrication.

COMPLETE. Designed to lubricate all components, even in difficult-to-reach locations.

Lube-in-a-Box Kit Contains:

- Interlube AX1, AX2, or AX3 pump with integral timer
- Lubricant injectors installed in the pump manifold
- 25 feet of grease filled tubing attached to the pump (each tube identified with a numbered tag)
- Fittings and tie straps for easy installation
- System instructions, a general layout guide and order form (for additional adapters and accessories)

Lube-in-a-Box Automatic Lubrication Kits

**AX1 Pump
(8 injectors)**

**AX2 Pump
(16 injectors)**

**AX3 Pump
(26 injectors)**

Lube-in-a-Box Features

- 110 volts
- Adjustable controls for dispensing precise amounts of lubricant
- Multi-position timer with memory
- Suitable for use with SAE 80/90 oil and grease up to NLGI Grade 2
- Waterproof and corrosion resistant
- Virtually maintenance-free

Application Capabilities

- Anti-friction bearings: 1" - 7" diameter
- Plain bearings: ½" - 2" diameter; 1" - 2" width
- Slides or ways: surface areas of 5 - 90 square inches
- Cams: 1" - 6" diameter
- Gears: ½" to 3" wide and up to 5" pitch diameter

Industries and Applications

Aggregate/cement, food and beverage processing, machining/stamping, metal mills, mining, packaging/warehousing, pulp and paper/sawmills, power generation, water treatment

TIMKEN

The Timken team applies their know-how to improve the reliability and performance of machinery in diverse markets worldwide. The company designs, makes and markets high-performance mechanical components, including bearings, gears, belts, chain and related mechanical power transmission products and services.

Stronger. Commitment. Stronger. Value. Stronger. Worldwide. Stronger. Together. | Stronger. By Design.
